#### PENSKE AUTOMOTIVE REPORTS THIRD QUARTER 2019 RESULTS

**Record Third Quarter Revenues Increase 5.5%** 

SG&A to Gross Profit Improves 30 BPS

**Income From Continuing Operations of \$116.1 million and Related Earnings Per Share of \$1.42** 

Repurchased 1.0 Million Shares in Third Quarter and 4.0 Million Shares Year-to-Date

**BLOOMFIELD HILLS, MI,** October 29, 2019 – Penske Automotive Group, Inc. (NYSE:PAG), a diversified international transportation services company, today announced third quarter and nine months 2019 results. For the three months ended September 30, 2019, the company reported income from continuing operations attributable to common shareholders of \$116.1 million, or \$1.42 per share, compared to \$130.1 million, or \$1.53 per share in the prior year. For the three and nine months ended September 30, 2018, income and earnings per share from continuing operations attributable to common shareholders included a tax benefit of \$11.6 million, or \$0.14 per share, related to the final reconciliation of the income tax benefit of the 2017 U.S. Tax Cuts and Jobs Act. Excluding this benefit, adjusted income from continuing operations was \$118.5 million, and related earnings per share was \$1.40 in the third quarter last year.

The shift in mix of the Company's earnings to be more heavily weighted towards the U.S. increased the effective tax rate to 26.8% in the three months ended September 30, 2019 compared to 17.3% in the same period last year. Excluding the \$11.6 million tax benefit noted above, the Company's prior period comparable adjusted effective tax rate was 24.6%. Additionally, foreign exchange rates negatively impacted earnings per share attributable to common shareholders by \$0.01. Weak market conditions in the U.K., largely as the result of Brexit, impacted third quarter 2019 results as the over-supply of vehicles in the market impacted new and used vehicle gross profit and margins. As a result, the company estimates its third quarter results were negatively impacted by approximately \$0.26 per share.

"Our business produced another quarter of record revenue," said Penske Automotive Group Chair and CEO Roger Penske. "I am particularly pleased with the 30-basis points improvement in selling, general and administrative expense as a percentage of gross profit we achieved during the quarter, coupled with the strength in the performance of our U.S. retail automotive businesses, including finance and insurance gross profit, and the North American commercial truck dealership business. Despite the challenges from the U.K., I am very pleased with the performance of our business in the third quarter which demonstrates the positive impact from the Warner Truck Group acquisition and share repurchases."

For the nine months ended September 30, 2019, the company reported income from continuing operations attributable to common shareholders of \$333.9 million, or \$4.02 per share, compared to \$372.7 million, or \$4.37 per share in the prior year. Foreign exchange rates negatively impacted earnings per share attributable to common shareholders by \$0.08. Excluding the tax benefit of \$11.6 million noted above, adjusted income from continuing operations was \$361.1 million and related adjusted earnings per share were \$4.23 for the nine months ended September 30, 2018.
