FOR IMMEDIATE RELEASE

PENSKE AUTOMOTIVE REPORTS FIRST QUARTER 2019 RESULTS

Income From Continuing Operations of \$100.1 million, and Related Earnings Per Share of \$1.19

Used to New Units Sold Ratio Increases to 1.34 to 1

Retail Commercial Truck Same-Store Revenue Increases 12.4%

1.3 Million Shares Repurchased During First Quarter

BLOOMFIELD HILLS, MI, April 25, 2019 – Penske Automotive Group, Inc. (NYSE:PAG), a diversified international transportation services company, today announced first quarter 2019 results. For the three months ended March 31, 2019, the company reported income from continuing operations attributable to common shareholders of \$100.1 million, or \$1.19 per share, compared to \$108.0 million, or \$1.26 per share in the prior year.

During the three months ended March 31, 2019, income from continuing operations and related earnings per share were negatively impacted by \$7.6 million after taxes, or \$0.09 per share, from net restructuring charges and product availability shortages related to Worldwide Light Vehicle Testing Protocol (WLTP). These costs were partially offset by \$2.4 million after taxes, or \$0.03 per share, related to the favorable outcome of a litigation matter at Penske Truck Leasing. Foreign exchange negatively affected earnings per share by \$0.04 in the first quarter 2019.

The results for the three months ended March 31, 2018 include a net benefit totaling \$1.0 million or \$0.01 per share, related to strategic dealership actions. On January 1, 2019, the company adopted ASC

842 for lease recognition and recorded operating lease right-of-use assets and operating lease liabilities of approximately \$2.3 billion each on our balance sheet as of March 31, 2019.

Chairman Roger Penske said, “I am pleased with our first quarter performance and optimistic about the remainder of the year. We repurchased 1.5%, or 1.3 million, of our outstanding shares while holding long-term debt flat with December last year. Further, I am particularly pleased to see the 5.6% increase in

same-store service and parts revenue when excluding the impact of foreign exchange and the increase in our used to new ratio. As I look forward, the product availability issues created by WLTP have improved, and I am encouraged by the strong order book in the U.K., the continued strength in our retail truck operations, and the resilience shown by our dealership operations.”
