Cardboard Classic

A group of 20 team members from the Turnersville Auto Mall entered a local radio station contest called The Cardboard Classic. The object of the contest is to build a sled using only cardboard, tape, rope, and glue. This year the team made a life-sized pontoon boat that fit all 20 members. The event is held at a Pocono Ski Resort and the object is to build a creative themed sled and ride it down the mountain without the sled falling apart. While the Turnersville Auto mall sled didn't win any prizes it was a great team building experience and everyone had a great time.
